Professional Summary

Instructional Technology graduate student with hands-on experience in instructional design, eLearning development, and enterprise training — spanning frontend development, HCM/ERP software training, and ESL instruction. Proficient in ADDIE, Articulate Storyline 360, scenario-based learning, and ILT/blended delivery; skilled at partnering with SMEs to build performance-focused solutions.

Technical Skills

| | |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Instructional Design | ADDIE, SAM, Learning Objectives Alignment, Task-Based Assessments, ILT, Blended Learning, Kirkpatrick Evaluation |
| Authoring Tools | Articulate Storyline 360, Articulate Rise, Adobe Captivate, Adobe Creative Cloud, Adobe Premiere Pro, MS PowerPoint |
| Learning Development | Scenario-Based Learning, Microlearning, Job Aid Design, Storyboarding, SCORM 1.2/xAPI, LMS Administration |
| Technical | Python, HTML5, CSS3, JavaScript, AngularJS, SQL, C/C++, Systems Thinking, Technical Documentation, Google Suite (Docs, Slides, Sheets, Forms, Drive, Meet), MS Office |

Experience

University of North Texas — Teaching Assistant, IELI *Mar 2025 – Present*
Intensive English Language Institute | Certified by Assistant Dean G. Clark *Denton, TX*

- Delivered structured language instruction to international ESL learners, supporting comprehension, engagement, and learner progression.
- Developed instructional materials, lesson reinforcement guides, and assessment resources aligned with course learning objectives.
- Applied adult learning principles to support diverse, multilingual adult learners across varying English proficiency levels.
- Collaborated with faculty and program directors to ensure instructional consistency and an enriching learning environment.

Ramco Systems — Instructional Designer *Jun 2023 – Aug 2024*
Enterprise HCM & ERP Software | Global Learning & Development *Chennai, India*

- Conducted needs assessments and front-end analysis for enterprise HCM/ERP training initiatives, partnering with product SMEs to translate complex system workflows into learner-centered content.
- Designed and developed end-to-end eLearning courses using Articulate Storyline 360 and Rise, covering payroll, leave management, workforce planning, and system navigation; packaged as SCORM 1.2 and deployed to LMS.
- Built scenario-based simulations replicating live system environments and produced full ADDIE documentation — Design Documents, storyboards, narration scripts, and Kirkpatrick evaluation plans.
- Developed facilitator guides, job aids, and participant workbooks for ILT sessions delivered to global enterprise clients across South Asia, Southeast Asia, and the Middle East.

Think Flow Software Pt. Ltd — Frontend UI Developer *May 2022 – May 2023*
Bangalore, India

- Built responsive UI pages using HTML5, CSS3, JavaScript, AngularJS, jQuery, and AJAX across multiple client-facing products.
- Implemented client-side validation, DOM manipulation, and drag-and-drop interactions with JSON/AJAX server integration.
- Wrote and executed SQL queries against Oracle database and performed end-to-end test case execution and bug resolution.
- Collaborated with backend developers and QA teams to deliver features across the full development lifecycle on schedule.

Education

University of North Texas Denton, TX
Master of Science — Instructional Technology *Expected May 2026*

Jawaharlal Nehru Technological University India
Bachelor of Technology — Computer Science | GPA: 7.0/10 *Graduated 2020*

Projects

Workplace Safety eLearning (Articulate Storyline 360): Multi-module course built via ADDIE with branching scenarios, knowledge checks, and scored assessments; packaged as SCORM 1.2 and deployed via SCORM Cloud.

End-to-End ADDIE ID Documentation Package: Full suite including Needs Analysis, Learner Profile, Bloom's-aligned objectives, Design Document, storyboard with narration scripts, and Kirkpatrick Level 1–3 Evaluation Plan.

Stackify Inc. Intern Onboarding — Blended ILT: Technical onboarding module with PowerPoint decks, facilitator guides, participant materials, and knowledge checks tied to measurable learning objectives.

Professional Development

NVIDIA Global Conference 2026 Deep Learning Institute — Workshop (Mar 2026): Completed hands-on workshop *Building AI Agents with Multimodal Models* (DLIW82269), led by Dr. Mark Moyou; earned NVIDIA DLI certification.
